Summary

I am a motivated Computer Science undergraduate at the Informatics Institute of Technology (IIT) with a strong interest in technology, problem-solving and continuous learning. I have built a solid foundation in programming, analytical thinking and teamwork through academic projects and I am currently seeking a **Software Engineering** internship to gain practical experience and further develop my skills, while also exploring opportunities to contribute to intuitive and user-friendly digital solutions.

Project Experience

PerformEdge HR System Tracking Dashboard Web Application

(Tailwind CSS, FastAPI (Python), MySQL, REST APIs, Chart.js, Axios, JWT Authentication, Git.)

- Developed PerformEdge, a full-stack web-based HR dashboard for managing employee data, attendance and performance.
- **Live Page:** <https://performedge.me/>
- **Key Learnings:** Implemented attendance features across database, backend APIs, frontend dashboards, login flow and reports in a group project.

PerformEdge UI Design

(Figma)

- Designed the PerformEdge user interface using Figma, focusing on intuitive layouts and user-friendly dashboard experiences.
- **Key Learnings:** Figma UI design

Property Search Web Application

(React, Vite, JavaScript, CSS)

- Built a responsive web application to search and view property listings, apply filters, manage favourites and explore detailed property information
- **Github Repo:** <https://github.com/disdy/Property-search-react-app.git>
- **Key Learnings:** Developed complete React/Vite single-page application using reusable components, React Router, JSON-driven property data and basic unit testing.

Personal Portfolio Website

(HTML5, CSS)

- Developed a responsive personal portfolio website to showcase profile information, projects and contact details with a clean multi-page design.
- **Portfolio:** <https://disdy.github.io/Personal-Portfolio/>

Traffic Data Analysis System

(Python, CSV module, Tkinter)

- Developed a Python-based application using CSV and Tkinter to validate input dates, process traffic survey datasets, generate statistical reports, and visualize hourly vehicle flow using histograms.
- **Github Repo:** <https://github.com/disdyy/Traffic-Data-Analysis-System-.git>
- **Key Learnings:** Python programming

Education

Bachelor of Science (Honours) in Computer Science

(2024 - Present)

Informatics Institute of Technology (IIT) affiliated with University of Westminster

Certificate in Computer Science

2024

National Institute of Business Management (NIBM)

GCE Advanced Level

2023

St.Lawrence's Convent. Colombo 06

GCE Ordinary Level

2020

Holy Family Convent. Dehiwala

Skills

Technical Skills

- **Programming Languages:** Python, Java, JavaScript, TypeScript
- **Frontend Development:** HTML5, CSS3, React.js, Tailwind CSS
- **Backend Development:** FastAPI, RestApi, JWT Authentication
- **Database Management:** MySQL, SQL
- **Software Development:** Object-Oriented Programming, Web Application Development, Full-Stack Development, API Integration
- **Developer Tools:** Git, Github, Vite
- **Cloud Technologies:** Cloud Computing, AWS (Entry-Level)

Soft Skills: Team Collaboration, Communication, Time Management, Problem Solving, Attention to Detail, Adaptability

Extra-curricular Activities

- Participated in Hult Prize Competition at IIT
- Member of Leo Club at IIT
- Senior Prefect - Holy Family Convent. Dehiwala (2019-2020)
- Member of Western Band and Senior Choir
